Project

Run Bubble! — *Unity*

Run Bubble! is a 2D platformer where players defeat enemies, collect coins, and reach the flag without running out of time.

Water Tracker — *Xcode*

Water Tracker is a SwiftUI application designed to help users track their daily water intake and manage their hydration goals.

Reverse Tic-Tac-Toe — *Visual Studio Code*

Reverse Tic-Tac-Toe develops an AI that competes against humans by avoiding three-in-a-row formations and guiding the opponent into moves that lead to their loss.
